Peters Todd's Inc. Consumer Information Notice

NJ state law N.J.A.C. 7:30-9.10 requires us to provide the following information:

- This notice lists any label precautions for the pesticides listed below that you should be aware of.
- You may request notification of the exact date of any pesticide application and a copy of the label for each pesticide that will be used.
- Material labels and safety data sheets are available upon request.
- Signs will be posted by our applicators. Dispose of them after 72 hours or as directed for special sprays.
- We will spray on schedule except in cases of rain or high winds. We will leave a card to let you know that we have been out to your property.
- National Pesticide Information Center (General health and toxicity questions) - (800) 858-7378.
- NJDEP Pesticide Control Program (Pesticide regulation and complaints) - (609) 984-6507.
- NJ Poison Information & Education System (800) 222-1222 (Emergencies)
- Be aware that sanitation, as well as physical and biological control measure should be considered as another part of a good pest program. Pesticides are substances used to control living organisms and vary in degree of toxicity.
